All rights reserved.

No part of this document may be reproduced in any form (print, photocopies, microfilm, or by any other means) or edited, duplicated, or distributed with electronic systems without our prior written consent.

Offenders will be held liable for the payment of damages.

Subject to change without notice.

We reserve the right to make changes to this document at any time and without specified reasons.

Completeness

This document is complete only when used in conjunction with the product-related hardware and software documentation required for the relevant application, as for example operating instructions of the valve and other manuals.

Selection and qualification of personnel

As specified in the product-related hardware and software documentation required for the relevant application, only users properly qualified and authorized for these tasks may work with and on our products.

Note

This document has been prepared with great care in compliance with the relevant regulations, state-of-the-art technology and our many years of knowledge and experience, and the contents have been generated to the best of the authors' knowledge. However, the possibility of error remains and improvements are possible.

Please feel free to submit any comments about possible errors and incomplete information to us.

Table of Contents

1 Ordering Replacement Pump Stages 3

1 Ordering Replacement Pump Stages

When ordering a pump stage as replacement for a stage within a multiple pump arrangement, the following information is necessary:

- Model code of the pump stage
- Model code of the multiple pump arrangement

Figure 1: Nameplate of a multiple pump arrangement (example)
