

Date: February 18th, 2014

Ref.: Product change to Moog's Multi-Axis Servo Drive System (MSD)

Product Change / Conversion of Firmware

Dear Customer,

Due to obsolescence, we have to issue new firmware (FW) and hardware. These new versions offer identical functionality to that which is available today. However older firmware versions are no longer supported on this new hardware.

Product	Order Code	Firmware (or newer)
MSD	G392- / G393- / G395- / G397-	123.60-00
MSD Compact	G394	4.00-00
MSD PSU	G396	250.05-00

The change will take place beginning of April 1st, 2014. Only devices with serial numbers from **141400000** (year- **14**, week- **14** of production) are compatible with the new firmware versions.

Please do not hesitate to contact us in case of any questions.

Yours sincerely

Ernest Keeffe
General Manager Moog Ireland
