REACH REGULATION (EC) No 1907/2006 Article 33(1) - Communication on Substances of Very High Concern

Under REACH (EC No. 1907/2006), the EU chemicals regulation, Article 33 requires suppliers of articles to inform recipients if a Substance of Very High Concern (SVHC) is present above 0.1% weight by weight. This obligation applies at the **article level**, including for complex products made of multiple components. An *article* is defined as an object which during production is given a special shape, surface or design that determines its function to a greater degree than its chemical composition. SVHCs are listed on the Candidate List published and regularly updated by the European Chemicals Agency (ECHA). <http://echa.europa.eu/candidate-list-table>

REACH (EC/1907/2006) declaration

With this declaration we want to inform you about our position under the European REACH (Registration, Evaluation, Authorization and restriction of Chemicals) Regulation EC 1907/2006. All products we produce, and supply are “articles” as defined in Article 3 of the REACH Regulation.

Regulatory/Declarable Substance List (DSL) version

This declaration applies to the most recent additions to the Candidate List, dated [Insert date of Candidate List used MM/YYYY]

Compliance declaration

According to our current data and information we have collected, our products do not contain:

- substances from the candidate list over 0.1% w/w, other than listed below:

Product	Identification	Substance name/group	CAS/EC number	Concentration	SCIP number (if applicable)

- substances restricted by REACH annex XVII over their respective thresholds.
