

Product Obsolescence Announcement

Dear Valuable Customers,

This memo outlines the Obsolescence details of the following Product(s):

DS2000 Model No CZ1xxxxx & Spare Control Boards BZ50xx

The reason for the obsolescence of this product is:

Obsolescence of some electronic components used on the digital board

End of Life Announcement date: October 6th 2017

Final date for last order of product:

December 15th 2017 for Spare control Boards Model No BZ50xx

January 31st 2018 for sizes A, B, C Model No's given in the second page

September 30th 2018 for sizes D, E & DACS version Model No's given in the second page

Date of last repair/ Obsolescence: December 2019

Particular need will be evaluated case by case

The Factory will be able to accept orders for new product deliveries up until the “*Final date for last order of product*” as documented above.

Repairs will be available until the “Date of last Repair” as outlined above, after that point the products listed above will be marked obsolete and we will not be able to guarantee the delivery of new products, refurbish products or repair any of these products if broken parts are related to obsolete materials.

The replacement product is as follows : DS2020 (Catalogue and application note for DS2000 vs DS2020 replacement attached)

Please forward on the forecast for future deliveries (see following section), to your sales account Reference be received no later than, **December 22nd 2017**

Please note that while every attempt will be made to deliver the quantities requested, factors such as parts availability may limit the ability to deliver requested quantities. Any shortfall will be communicated to the sales organisation.

Requests coming after last date of order can't be guaranteed due to the difficulties in procuring obsolete electronic components anyway We will evaluate the possibility to provide the product after last date of order and in case obsolete component are available a minimum batch and a quote will be issued in relation to the request.
