ELECTRO-MECHANICAL PRODUCTS

WORLD CLASS PRODUCTS FOR THE HIGHEST MACHINE PRODUCTIVITY

WHAT MOVES YOUR WORLD
With rising utility costs and increasing exposure to environmental action, design engineers need a solution that will help them incorporate an electric servo solution without sacrificing precision, speed or productivity.

Whenever the highest levels of motion control performance and design flexibility are required, you'll find Moog expertise at work. We can help you overcome your toughest engineering obstacles and enhance your products performance through collaboration, technological expertise and our products.

Moog offers world-class electro-mechanical products and systems, with products such as Servo Motors, Ball and Planetary Roller Screws, Actuators, Servo Drives and Motion and Machine Controllers, providing:

- Long lasting performance and reliability that increase your machine lifetime and your return on investment
- Easier installation, creating less downtime so you are operating sooner
- Higher efficiency helping you lower your energy consumption and reduce your maintenance effort

SERVO MOTORS

Moog delivers an extensive product range of Servo Motors specifically designed for highly dynamic servo industrial applications.

**Ranges**

<table>
<thead>
<tr>
<th>Compact Dynamic</th>
<th>Maximum Dynamic</th>
<th>Explosion Proof</th>
</tr>
</thead>
<tbody>
<tr>
<td>Continuous Torque (Nm)</td>
<td>from 0.15 to 74.2</td>
<td>from 2.2 to 1,034</td>
</tr>
<tr>
<td>Peak Torque (Nm)</td>
<td>from 0.50 to 240</td>
<td>from 10 to 2,012</td>
</tr>
<tr>
<td>Speed (rpm)</td>
<td>Up to 11,700</td>
<td>Up to 11,700</td>
</tr>
<tr>
<td>Size (mm)</td>
<td>6 Frames: from 40 to 190</td>
<td>7 Frames: from 40 to 190</td>
</tr>
</tbody>

Moog Servo Motors at a glance

- Superior motor dynamics improving cycle time
- Modular and compact lightweight construction
- Proprietary, low cog design for smooth low speed operation
- Flexible options for easy integration
- Available as frameless package
- Custom windings and designs
- Explosion Proof Dynamic Brushless Servo Motor

MAXFORCE ELECTRO-MECHANICAL LINEAR SERVO ACTUATORS

Moog MaxForce Electro-Mechanical Linear Servo Actuators are the ideal solution for high performance industrial applications that need maximum speed and force.

**Ranges**

| MaxForce Electro-Mechanical Linear Servo Actuators |
|----------------|----------------|----------------|
| Continuous Force (Nm) | from 1.0 to 96 | from 3.6 to 115.6 |
| Peak Force (Nm) | from 3.6 to 115.6 | Up to 1,600 |
| Rod Speed (mm/sec) | Up to 1,600 | Up to 2,500 |

Moog MaxForce Electro-Mechanical Linear Servo Actuators at a glance

- Inline and foldback design when space is at premium
- Variety of motor windings for optimum performance
- Several screw leads for speed/force variations
- Ball screw and roller screws available

Advantages

- Convenient configuration allows the actuator to be tailored to the exact needs of the application
- High force density to minimize space requirements
- High dynamic load capacity to provide operation long life
- Electronic nameplate provide Plug and Play capability with Moog drives
- Industrial standard interface provide compatibility with third party drives
Moog offers a wide range of Machine and Motion Controllers and Software to meet your specific needs.

**MOTION AND MACHINE CONTROLLERS**

**Advantages**
- Modular design enables the solution to be scaled to the needs of the machine
- Capable of EH and EM motion control
- Industry standard fieldbus enable convenient integration with other machine elements (sensors, drives, etc.)
- Designed to perform in harsh environments
- Resistant against various aggressive fluids

**Ranges**

<table>
<thead>
<tr>
<th>Moog Motion and Machine Controllers at a glance</th>
<th>Motion and Machine Controllers</th>
</tr>
</thead>
<tbody>
<tr>
<td>Motion Controllers and Software for electric and hydraulic servo actuation applications that offer rapid set-up</td>
<td>Motion Controllers with high vibration resistance and extended resistance against fluid contamination and corrosion for use in harsh environments</td>
</tr>
<tr>
<td>Motion Controllers available in modular design for high flexibility and effortless implementation into new systems</td>
<td>Machine Controllers available in modular design for high flexibility and effortless implementation into new systems</td>

Moog Global Support is our promise to help maintenance professionals worldwide maximize uptime and get more from your machine investment. We are your trusted service partner for responsive support and motion control know-how.

**FACTORY REPAIR**
Ensure “like-new” performance in your machine
Moog’s factory repair services deliver less unplanned downtime
Minimize risk of poor repair by non-authorized repair facilities with no access to authentic Moog parts, product specifications, valve test parameters or upgrades
Gain expertise—and warranty protection—available only from the OEM

**HANDS-ON TRAINING**
Get hands-on training from Moog trainers using Moog equipment in our facilities or on-site at yours
Learn how to effectively manage installation and troubleshooting on your own
Speed up repair and maintenance in order to maximize uptime

**LONG-LIFE RETROFITS/UPGRADES**
Take advantage of long-life replacements for motion control products to achieve better productivity
Improve the quality and performance of underperforming machines with retrofit components that incorporate the latest technology upgrades
Work with Moog technical experts who can recommend a course of action to add extra reliability to your operations

**PROFESSIONAL FIELD SERVICE**
Reduce risk and keep machines up and running faster with expert support
Supplement your staff with expert professionals who know your applications
Benefit from less downtime and access to original drawings and documentation
Available in person, online, over the phone and via remote diagnostic tools

**OEM REPLACEMENT PRODUCTS**
Moog is the only provider of OEM replacement products/spares
Ensure industry-leading performance in your machine
Take advantage of global availability of spare parts when you need them
Secure guaranteed turnaround on parts with flexible product exchange programs designed for peace of mind

**FLEXIBLE SERVICE AGREEMENTS**
Shift from unplanned “break and fix” approach to planned maintenance that will minimize risk of failure
Tailor a flexible and bundled program that focuses on your operating challenges
Reduce your total cost of ownership while taking a proactive approach to O&M services

**FACTORY REPAIR**
