Product Obsolescence Announcement

Dear Customer,

I. From PLM:

This memo outlines the Obsolescence details of the following Product(s):

IDMA:

G365Exxxxx

The reason for the obsolescence of this product is: General end of life

End of Life Announcement date: 01-Sep-11

Final date for last PO receipt: 30-Sep-12

Final date for last delivery of product: 30-Sep-13

Date of last repair/ Obsolescence: 30-Sep-15

The Drive Product Line will be able to accept orders for new product deliveries up until the "*Final date for last PO receipt*" as documented above.

The Drive Product Line will be able to provide new product deliveries up until the "*Final date for last delivery of product*" as documented above.

Repairs will be available until the "*Date of last Repair*" as outlined above, after that point the products listed above will be marked obsolete and Moog will not be able to deliver new products, refurbish products nor repair any of these products.

The replacement product is as follows (if available):

DS2110 or MSD

Please forward on the forecast for future deliveries (see following section), through PLM or account managers, to be received no later than, 31-Oct-11

Please note that while every attempt will be made to deliver the quantities requested, factors such as parts availability may limit the ability of the Product Line to deliver requested quantities. Any shortfall will be communicated to the sales organisation.

2. To Addressee:					
Product quantities per Year (for the next <u> 1 </u> years)					
	Fiscal year				
Type Identifier ¹		FY' 12	FY' 13		
Comments:					

Note: The following list represents the order configurations for which last time buy (LTB) orders will be accepted.

Art-Nr.	Description	Axis configuration
G365E001	IDMA DRIVE	30S-08S-xxx-35M-08M-03M
G365E005	IDMA DRIVE	35S-08S-08S-35M-08M-08M
