D38999 In-Line 4+1 Port 10/100/1000Base-T Ethernet Switch

DESCRIPTION

Viking series 10/100/1000Base-T unmanaged Ethernet switches consist of 5x 10/100/1000Base-T ports with Autonegotiation and Auto MDI / MDIX circuitry in a wall or floor mounted inline Mil-Dtl-38999 connector assembly.

The Viking series unmanaged Ethernet switch consists of two Ethernet interfaces for inline port expander applications. The 4x expansion interface of the Viking series 10/100/1000Base-T Ethernet switches is a D38999 size 19-35 connector with 4x IEEE-802.3U:2005 compliant 10/100/1000Base-T Ethernet ports.

The 1x uplink Ethernet electrical interface of the Viking series Ethernet switch is a D38999 size 11-35 connector with 1x IEEE-802.3U:2005 compliant 10/100/1000Base-T Ethernet ports and the power supply connections.

Viking series 10/100/1000Base-T Ethernet switches are vibration isolated, environmentally hardened components designed for use in harsh environment applications.

- Sealed against liquid and solid contaminants
- Shock and vibration resistant

ABSOLUTE MAXIMUM RATINGS

Absolute maximum limits mean that no catastrophic damage will occur if the product is subjected to these ratings for short periods, provided each limiting parameter is in isolation and all other parameters have values within the performance specification. It should not be assumed that limiting values of more than one parameter can be applied to the product at the same time.
