The Third Generation Weapon Stores Management System (SMS) is a modular COTS weapons control system that seamlessly integrates with aircraft sensors and mission management systems to provide the crew with a superior fire-control solution.

This proven, lightweight rugged system is an affordable solution to stores management on air, land and sea platforms. The SMS leverages Moog’s extensive experience in systems integration, internal software development, weapons technology, and fire control solutions. The flexible modular design of the SMS enables fast delivery, rapid integration and future upgrades to the sensors, avionics and weapons ensuring the SMS’s value for future mission requirements and weapons expansion.

**KEY FEATURES**

- Lightweight – half the weight of comparable systems
- Compact and flexible modular design for optimized installation
- Proven, rugged and affordable
- High performance with latest technology available
- Third party user interface for rapid custom integrations with smart displays, moving map and mission management software suppliers
- Lightweight Dual Rail Launcher (DRL) with Hellfire Interface Unit (HIU)
- Qualified to MIL-STD-810G, MIL-STD-461G
- Compliant to MIL-STD-704F
- Connector Types: MIL-STD-38999 and Series 80 Mighty Mouse MIL-STD-38999
From guns and rockets to advanced weapon systems, Moog’s modular digital SMS has you covered.
