

## Product Adjustment Notice (2025-V-139E)

**Please be advised that the type code for pilot operated servo valve from the “D661 Highresponds series” (aka D661-G.C series) has been corrected. This adjustment solely concerns the type code and does not affect any technical characteristics. No design or structural changes have been made.**

### Changes

Type code position 12	old/was	<b>H</b>
Type code position 12	New/will be	- (dash)

### Schedule:

<b>Announcement</b>	<b>November 14, 2025</b>
<b>Adjustment take effect</b>	<b>Active immediately</b>

### Note:

There will be no additional communication regarding this matter. Any order or delivery of an affected product placed after 14 November will automatically reflect and carry the new type code.

If you would like to verify whether your product is affected, please contact Moog GmbH in Germany or your local Moog representative.
