**IMMEDIATE RELEASE**

## **Moog Inc. Announces Strategic Partnership with S3 AeroDefense**

Provides military and civil operators with expanded global access to Moog avionics solutions

**Farnborough, United Kingdom** – Moog Inc. (NYSE: MOG.A and MOG.B), a worldwide designer, manufacturer and systems integrator of high-performance precision motion and fluid controls and control systems today announced a strategic partnership with S3 AeroDefense to represent Moog's avionics product portfolio across international markets.

The agreement expands S3 AeroDefense's portfolio of OEM-authorized solutions while providing military, government, and commercial aviation operators around the world with greater access to Moog's proven avionics technology through S3's established global sales and sustainment network.

Under the partnership, S3 will support customers with sales, program coordination, and aftermarket support for Moog avionics solutions, helping operators address modernization requirements while maintaining long-term fleet readiness.

Matt McCall, Director of Business Development at Moog Avionics, stated: "Moog Avionics is excited to partner with S3 AeroDefense for global avionics opportunities, providing expanded support capabilities across aircraft lifecycles."

"S3 is proud to partner with Moog and represent their avionics solutions across the global marketplace," said Andy Schwarz, Director of Strategic Alliances & Business Development at S3 AeroDefense. "This partnership strengthens our ability to deliver trusted, OEM-backed avionics solutions to customers who require mission-ready capability, reliable sustainment support, and responsive global support."

By combining Moog's innovative avionics technology with S3's international customer relationships and sustainment expertise, the partnership creates new opportunities to support operators across both fixed-wing and rotary-wing aircraft. The companies will work together to advance fleet modernization initiatives while providing responsive support throughout the product lifecycle.

The agreement further reflects S3 AeroDefense's continued investment in strategic OEM partnerships that deliver expanded capabilities, technical expertise, and long-term value to defense and aerospace customers worldwide.

### **About Moog Inc.**

Moog is a worldwide designer, manufacturer, and systems integrator of high-performance precision motion and fluid controls and control systems. Moog's high-performance systems control military and commercial aircraft, satellites, and space vehicles, launch vehicles, defense systems, missiles, automated industrial machinery, marine, and medical equipment.
