## Moog to Exhibit Mission Critical Defense Solutions at Eurosatory 2024

East Aurora, NY, USA (June 11, 2024) – Moog Inc. (NYSE: MOG.A and MOG.B) will exhibit its multi-domain, critical defense solutions at [Eurosatory 2024](#) to an audience of 62,000 expected attendees. The exhibition will be held at the Paris Nord Villepinte Exhibition Center in Paris, France from 17 – 21 June. The Moog stand E-324, located in Hall 5A, will feature an innovative Flexible Mission Platform (FMP™), the field-proven Reconfigurable Integrated-weapons Platform (RIWP®), and a robust, custom gimbal assembly featuring high-performance slip rings and motion control products.

The European designed and manufactured [FMP](#) is a missile and platform agnostic system which allows users to seamlessly integrate weapons, sensors, or other assignment packages onto any required vehicle, container, or trailer. Engineered with adaptability in mind, the FMP is available in either a pedestal or yoke form.

[RIWP](#) is a mission proven, modular, and scalable remote turret providing unmatched capacity to host multi-domain payloads for current and future ground combat platforms. At Eurosatory, RIWP will be configured with Starstreak HVM, LMM and Brimstone missiles, the M230LF 30 mm cannon, 7.62HMG, and the Thales PAAG gunner's sight. Already in service with the U.S. Army in both Short-Range Air Defense (SHORAD) and Counter-Unmanned Aerial Systems (C-UAS) roles, RIWP offers unique mission-flexible benefits to the Warfighter.

# MOOG

Moog's high-performance rotary joint solutions provide reliable transmission of high-speed data and power between stationary and rotating parts on numerous aerospace and defense platforms, including combat vehicles, airborne electro-optic/infrared sensors, and radar systems. The offering includes a [slip ring](#), integrated motion control (high-performance motors and position sensors), as well as end-to-end signal management and media conversion. New integrated solutions will be demonstrated in the Moog stand with a robust, custom gimbal assembly that allows a single-source supplier for battlefield-ready rotating systems.

Eurosatory is a global event showcasing innovative defense and security technologies. This year's theme is "Protect your Future." More than 1,800 exhibitors will present defense solutions to leaders of industry, military organizations, and official delegations from around the world.

### **About Moog Inc.**

Moog Inc. (NYSE: MOG.A and MOG.B) is a worldwide designer, manufacturer, and integrator of precision control components and systems. Moog's high-performance systems control military and commercial aircraft, satellites and space vehicles, launch vehicles, missiles, defense systems, automated industrial machinery, marine and medical equipment.
